

RCPP_MODULE

RSVD

mpr::operations::linear::SVD

```
graph LR; A[RCPP_MODULE] --> B[RSVD]; B --> C[mpr::operations::linear::SVD];
```

The diagram illustrates a sequence of three components connected by arrows. The first component, 'RCPP_MODULE', is in a white box. An arrow points to the second component, 'RSVD', also in a white box. A second arrow points from 'RSVD' to the third component, 'mpr::operations::linear::SVD', which is in a gray box. This suggests a dependency or inheritance chain where the first two components are used to define or implement the third.
