

`DataType::DataType`

```
graph LR; A[DataType::DataType] --> B[mpr::precision::GetInput Precision];
```

The diagram illustrates a call to the constructor of the `DataType` class. A grey rectangular box on the left contains the text `DataType::DataType`. A dark blue arrow points from this box to a white rectangular box on the right. The white box contains the text `mpr::precision::GetInput Precision`, which represents the state or output of the constructor call.

`mpr::precision::GetInput
Precision`
