

RCPP_MODULE

RRCond

mpcr::operations::linear
::ReciprocalCondition

```
graph LR; A[RCPP_MODULE] --> B[RRCond]; B --> C["mpcr::operations::linear::ReciprocalCondition"]
```

The diagram illustrates a sequence of three components connected by arrows. The first component is a white box labeled 'RCPP_MODULE'. An arrow points from it to a second white box labeled 'RRCond'. Another arrow points from 'RRCond' to a third, larger gray box labeled 'mpcr::operations::linear::ReciprocalCondition'.
